ENGLEWOOD AREA FIRE CONTROL DISTRICT

VOLUNTEER POLICES AND PROCEDURES

Introduction

This manual is for the **guidance** and **information** of fire department personnel. Its purpose is to give department members complete information regarding the policies and procedures, standard operating guidelines, assignments, and general knowledge for proper conduct and behavior as a Volunteer of the Englewood Fire Department. In service to the public the department member must remember that their **first duty to the citizens of Englewood is the protection of life and property**, and that they are doing something for someone, whether it be rescue, protection of property, or special services.

To perform their duties properly, it is essential that the members of the fire department familiarize themselves thoroughly with all the rules, regulations, and standard operating guidelines pertaining to their positions and to conduct themselves, both on and off duty, in such a manner that will not discredit the department.

The right is reserved to amend or revoke any of the policies, procedures, and standard operating guidelines or to make additional ones as the circumstances or the good of the service may require. No arbitrary rules can be established which will embrace all cases arising in the general discharge of department duties; something must be necessarily left to the intelligence and discretion of the individual.

These procedures are to be followed unless specifically ordered otherwise by a competent authority or in cases where practical application would be contrary to the overall responsibilities and objectives of department policy. In all instances, good judgment, and execution of duties in a fair and impartial manner are paramount.

Anyone deviating from these procedures must be prepared to justify such actions. They will be judged, not in the light of subsequent events but by the situation existing at the time of action.

Members of the Fire Department shall comply with all other rules and regulations as may from time to time be promulgated by the Fire Chief.

Each volunteer of the Fire Department shall obey all lawful orders. In the event there is a question of legality of an order, a firefighter shall obey the order and take up the matter with their supervisor. If a firefighter refuses to obey an order, they should be prepared to justify their action.

All volunteers are required to cooperate with one another, not only in the ordinary routine of duty, but also and especially when unusual conditions or special circumstances call for amicable and unreserved cooperation in the general interest.

Volunteers are required to have the necessary knowledge in the operation and use of all firefighting equipment necessary to perform the duties assigned at the scene of a fire, volunteers shall render all necessary assistance to prevent or extinguish fires and prevent loss of property or personal injury.
